REGISTER PROTEST AGAINST RETURN OF APACHES

Roswell Commercial Club
Takes Initiative in Kick
Against Bringing Ft. Sill
Indians Back to Mescalero
Country.

A vigorous protest against the proposed return to the Mescalero Indians reservation in eastern New Mexico of nearly 200 liberated Apache prisoners of war at Fort Sill, Okla., is contained in a communication received by the secretary of the Albuquerque Commercial Club from the Roswell commercial club. This protest is also accompanied by a petition asking for the creation of a national park out of the lands of the Mescalero Indians. The local Indians and clubs are asked to secure signatures to the protest and petition, and it is understood that similar requests have been made of other commercial clubs in the state. It is claimed that the Apaches are more prosperous in their present location and that the reason for the proposed removal is to satisfy the desire of the War Department to use the land for other purposes. The action is taken in connection with the fight Senator A. B. Fall of New Mexico is waging against the proposed transfer of the Indians back to their old stamping grounds.

business, however, is not entirely responsible for Mr. Naylor's departure for Phoenix, as a capital placed an important part in the transaction. On his next furlough, Mr. Naylor will be married. Miss Rosalie Vining, a member of a prominent and wealthy family in the Arizona capital is to become Mrs. Naylor. The marriage will take place at St. Mary's church, San Father Novatus Peering officiating. After a brief honeymoon in the Pacific coast, Mr. and Mrs. Naylor will return to Phoenix to make their home.

During the six weeks he has spent in the home in Albuquerque, the statistician has been in close touch with the government officials, particularly with the Bureau of Immigration and Colonization, whose secretary is the Commercial Agent serving under four presidents. H. V. Davis, former State F. B. I. Agent, and A. K. Schenck, M. N. National guard, are among the men who have been interviewed in conducting the investigation.

It is believed that this investigation will have important results in the development of the arable lands of New Mexico.

A Des Moines man had an attack of molecular rheumatism in his shoulder. A friend advised him to go to Hot Springs. That meant an expense of \$150 or more. He sought for a quicker and cheaper way to cure it and found it in Chambord's Liniment. Three days after the first application of this liniment he was well. For sale by all druggists. —Adv.

You Fond Parents

Did you ever think of
Santa Claus as a busi-
ness Teacher?

Did you ever consider how much it would please the children, what a "grown-up" feeling it would give them—especially the boys—if old Santa Claus were to bring them a "really and truly Bank Book" (just like Daily's)?

And don't you know that a gift like that would mean for your children a valuable start in their business education? Don't you know that such a gift would mean the fostering of the valuable saving habit and the creation of interest in the gay things are done in the big world of affairs?

We think you do. Know these things, and we want to remind you that this bank welcomes the small account and pays 4 per cent interest on savings.

The skeleton was found by a man

The rats even tried to eat the keys

the stout shapes of copper. Now the
owner's relatives are sharing among
them his long hidden fortune.
